

GEORGIA OYSTER REVIVAL

2026 SPONSORSHIP OPPORTUNITIES

SUNDAY, NOVEMBER 8TH, 2026

STARLAND YARD

WHO ARE WE?

WHAT DO WE DO?

Our Story

Georgia once led the nation in oyster harvesting in the early 1900s, but the industry has since seen a significant decline. Today, we're witnessing a powerful revival in oyster aquaculture, bringing new life to our coast.

ECO (Education. Community. Oysters) was founded by educators in July of 2024 to inspire and empower students to protect the ecosystems in their own backyard, leveraging the oyster as an example of a critical species and an economic engine.

Our Mission

ECO Georgia empowers students and communities through place-based education rooted in programming about oysters. By connecting learners with oyster farmers, scientists, and maritime professionals, we foster environmental stewardship, workforce pathways, and long-term investment in Georgia's coastal ecosystems.

WHAT IS THE GOR?

GEORGIA OYSTER REVIVAL

The Georgia Oyster Revival Is a vibrant celebration of outstanding local food and coastal conservation. It brings together Georgia oysters, chef-prepared dishes, local beverages, live music, and a shared commitment to our mission, creating one of Savannah's most unique and meaningful community events of the year.

This event welcomes everyone from dedicated oyster lovers and coastal advocates to first-time guests eager to experience Georgia's vibrant oyster culture and coastal community.

LAST YEAR'S EVENT

In 2025, ECO's Georgia
Oyster Revival raised nearly

\$25,000

to support ECO's mission!

The event hosted over
300 guests, 18 chefs, 5 beverage partners,
and 5 Georgia growers who provided

**6,000+
OYSTERS!**

Whether you come for the oysters, the food, the
music, or the cause, we'd love to celebrate with you.

WHY BECOME A SPONSOR?

By becoming a sponsor, you are actively shaping the future of Georgia's coast through our students and educators!

This year, we aim to raise \$50,000 to fuel more school partnerships, field trips, workshops and more. Every dollar raised directly funds experiential learning, ensures accessibility, and empowers the next generation of coastal stewards.

WHAT YOUR SPONSORSHIP MAKES POSSIBLE

01 CONNECTING STUDENTS TO THE WATER

Many coastal Georgia students have never been on a boat or explored our local marshes. We change that by transforming our ecosystems into hands-on classrooms, turning oysters into teachers and lessons into unforgettable experiences.

02 RESTORING GEORGIA'S COASTLINE

We connect students to hands-on coastal restoration and Georgia's rich cultural history. Through powerful partnerships with the University of Georgia's Marine Extension and Georgia Sea Grant on Skidaway Island, we deliver meaningful experiences that inspire lifelong environmental stewardship.

03 EMPOWERING CLASSROOMS & COMMUNITIES

ECO brings interactive marine science directly into schools, connecting Georgia curriculum standards with local ecosystems. We empower educators and inspire students to build pride, stewardship, and awareness of our coast and growing oyster industry.

SPONSORSHIP TIERS

\$5,000

Includes: 6 VIP tickets & 6 ECO Gift Bags

What your sponsorship fuels: Fully funds 1 grade partnership with a local school!

How ECO will recognize you: Large logo on marketing, tailored social media posts, recognition during event intermission, and logo on website
